Education

Purdue Fort Wayne
Fort Wayne, Indiana
Computer Science
Senior year
3.62 GPA while working part time

Key Skills

Quick learner
Analytical
Team-oriented
Great time management skills

Objective

To advance my career in the realm of computer science by assisting the company with their goals and gaining more knowledge to better myself for the company. I have a passion for software engineering and hope to grow in that role with Lincoln Financial Group.

Experience

June 30th, 2018-June 17th, 2020
IT Service Rep • Contractor/Intern • Lincoln Financial Group

June 2015-August 2015
IT Service Rep • Intern • Pro IT

August 17th, 2020-Now
End User Operations • Part-time • Lincoln Financial Group

With all IT positions, I utilized my technological skills to replace or repair hardware, remove viruses, prepare computers for customer use, ship computers, troubleshoot computers, create simple scripts, and use Service Now and Active Directory. I also worked with several Vice Presidents at Lincoln Financial.

Communication

Great with team communication. Communication inside the workplace, and outside the workplace with church events and missions' trips. I learned and practiced a lot of my communication skills by taking up leadership roles in several group projects.

Leadership

Led a Software Engineering project, an E-commerce webpage. Also leading my Capstone project, which utilizes .NET Framework, Azure DevOps, and an Azure cloud database.
